

**ALCO-TRADING**  
LIMITED LIABILITY COMPANY

---

Until February 24, 2022, the company's products were produced at its own production site: PRIME distillery. Which is one of the five leaders of the Ukrainian alcohol industry, being one of the most modern full-cycle enterprises. The products were produced with the involvement of the latest technologies on European production lines with the use of almost 20 years of invaluable experience of technologists - masters of the alcohol business.

Due to its geographical location in the Kharkiv region (Malynyvka village), the plant suffered significant destruction as the result of military operations, and was forced to stop production.

In this regard, the company faced the difficult issue of saving staff and resuming production.

In 2022, the company found reliable partners, who helped to restore the uninterrupted production at one of the oldest vodka enterprises in Ukraine - the Zbarazh distillery.

The company not only restored production of existing brands, but also created a new product - **STRONG UKRAINE** vodka.

Even in the difficult conditions of war, business should work where possible! To give the country a resource for continued defense, and Ukrainians – jobs and confidence!

1946

# ZBARAZH DISTILLERY LLC

Zbarazh Distillery LLC is one of the oldest distilleries of Ukraine. It is located in the environmentally pristine and picturesque area in Zbarazh, Ternopil District. The distillery produces vodka, bitters and other alcoholic beverages. The production of alcoholic beverages was launched here as far back as in 1946, therefore Zbarazh Distillery is in fact a part of history and heritage of vodka production.

The Distillery has international quality certificates which approve the high quality of products and the production management system:

- Food Safety Management Systems. Requirements for any organization in the food chain” - ISO 22000:2019 (ISO 22000:2018, IDT);
- Quality management systems. Requirements - ISO 9001:2015 (ISO 9001:2015, IDT).

**PRIME**  
VODKA

# PRIME WORLD CLASS

Alc. Vol.: **40%**

Classic vodka with a subtle flavour and a pleasant aftertaste of croutons. Vodka is prepared from premium alcohol, crystal clear artesian water and a natural mix of rye croutons. The light aroma of bread is a traditional note of a male drink.

## Logistics:

# PRIME SUPERIOR

Alc. Vol.: **40%**

It is a true Ukrainian vodka of the highest quality. PRIME Superior features both perfect design and majestic flavours. Its taste is clear, astringent and harmonic.

## Logistics:

0.5L: Package: corrugated box (15 bottles) / Quantity of boxes per pallet: 60.

0.7L: Package: corrugated box (12 bottles) / Quantity of boxes per pallet: 60.

# PRIME CHILI

Alc. Vol.: **40%**

PRIME Chili uses the best pepper and tincture. It is the perfect balance of 40-degree hot pepper, honey and essential oils, which will warm you up and make you enjoy the taste of it.

## Logistics:

0.5L: Package: corrugated box (15 bottles) / Quantity of boxes per pallet: 60.

# PRIME EVO

Alc. Vol.: **40%**

The blend is prepared with the addition of aromatic alcohols of linden and white acacia. Natural honey gently softens the drink and gives it a mellow aftertaste. The vodka retains its classic taste and aroma.

## Logistics:

0.5L: Package: corrugated box (15 bottles) / Quantity of boxes per pallet: 60.

# PRIME

## BLACK CARBON

---

Alc. Vol.: **40%**

Classic vodka with a rich flavour and a pleasant aftertaste. It is made of luxury alcohol, artesian water and natural acacia. The black color is achieved through food colouring containing acacia catechu extract.

**THIS IS BLACK Vodka!**

### Logistics:

0.5L: Package: corrugated box (15 bottles) / Quantity of boxes per pallet: 60.

# PRIME BLANCHE

Alc. Vol.: **40%**

Blanche production is based on the ancient technology of processing vodka by milk. This process allows to create soft and clear vodka.

## Logistics:

0.5L: Package: corrugated box (15 bottles) / Quantity of boxes per pallet: 60.

# PRIME NOIR

Alc. Vol.: **40%**

The charcoal filtration process has been historically used to produce vodka. The drink is additionally refined with coconut charcoal. Due to the pores' dense positioning, coconut charcoal better absorbs any admixtures and fusel oil.

## Logistics:

0.5L: Package: corrugated box (15 bottles) / Quantity of boxes per pallet: 60.

# ABF ALCOHOLIC BEVERAGES FACTORY

ABF Alcoholic Beverages Factory (Georgia) is one of the largest alcohol producers in Georgia, renowned worldwide. Every year, 10,000,000 liters of products are exported to Central Asia and Eastern Europe.

ABF operates a full-cycle production process, from grape reception and wine base production to blending and final beverage manufacturing. The factory carefully selects the finest raw materials and wine bases from all regions of Georgia.

Conveniently located in an environmentally clean area near Tbilisi, the factory is close to the main highway connecting it to Georgia's key winemaking region—Kakheti.

The expertise of experienced technologists, centuries-old Georgian winemaking traditions, and cutting-edge technologies form the foundation of the uncompromisingly high quality of ABF products.

# CHATEAU KAKHETI

## GEORGIAN BRANDY

### MATURED FOR 7 YEARS

### IN SOUVENIR PACKAGING

---

Alc. Vol.: **40%**

The souvenir packaging of the bottle has two different designs: a cylindrical or a more classic box. The style of the traditional Georgian brandy design is complimented with the national ornament. The beverage's premium status is emphasised with copper embossment. It is a wonderful present with both an exquisite content and packaging.

#### Logistics:

0.5L (Tube); Package: corrugated box (12 bottles) / Quantity of boxes per pallet: 44.
