ZAKARPATSKYI ZAMOK

Inspiration from history, energy for the future

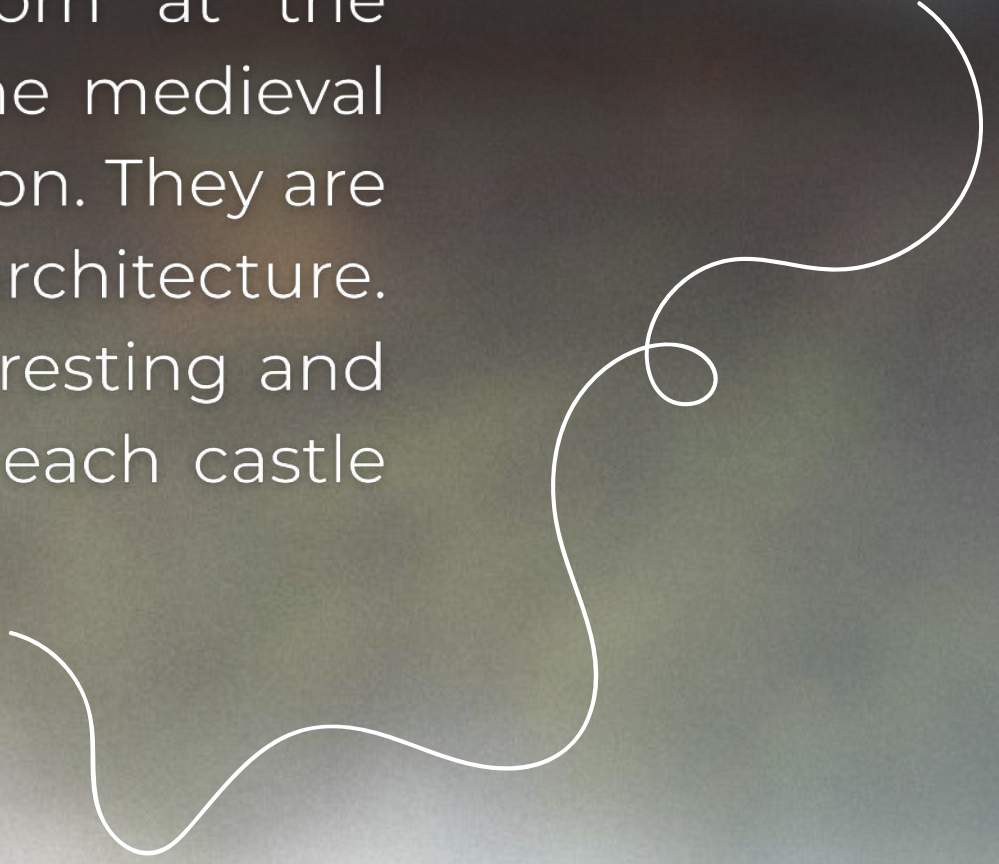

TM ZAKARPATSKYI ZAMOK

– the embodiment of the Ukrainian soul with elements of Western European aesthetics. Transcarpathia is a region with an ancient history of winemaking and distilling, a significant cultural heritage, which is ideal for creating the history of a product's origin.

Our brandy is a strong drink with character, born at the intersection of nature, history and craftsmanship. The medieval castles of the Carpathians are the hallmark of the region. They are diverse, have a rich history and are famous for their architecture. In addition, each castle is associated with many interesting and unusual historical legends that make the history of each castle unique.

*Ordinary grape brandy 3**

It is a combination of regional winemaking characteristics of Transcarpathia and modern technologies designed to create a product of the highest quality with noble taste compositions. The brandy is made from the best blends of Ukrainian wine distillates aged for at least three years. The refined taste of the brandy gently transitions into a warm and pleasant aftertaste with notes of chocolate.

CARPATHIAN BARREL

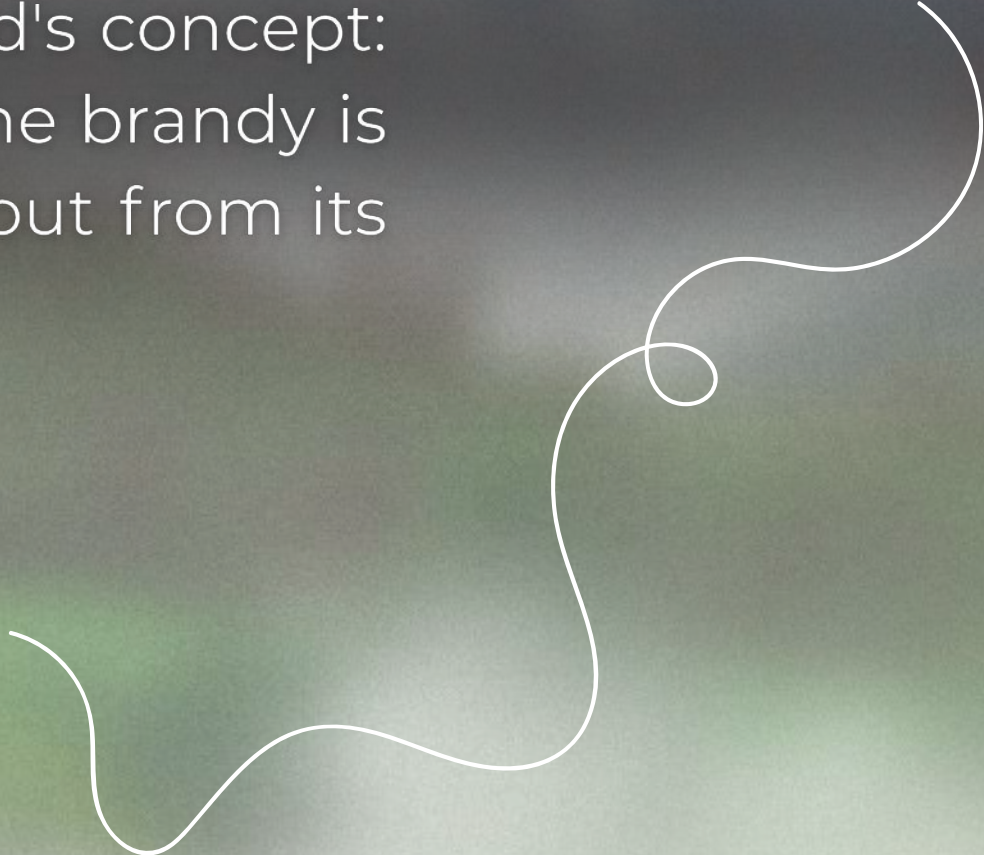

The legend of the enchanting Carpathians

TM CARPATHIAN BARREL

- It is aged in wooden barrels made from special varieties of oak. Oak gives brandy its special taste, aroma, strength and character. The brandy bottle stylistically complements the brand's concept: it is made in the original shape of a barrel, in which the brandy is actually aged. This makes CarpathianBARREL stand out from its competitors on the shelf.
